modulier®

the revolutionary modular aluminium matting system

design inspirations

style | function | operation - working as one

where simplicity is a conscious choice

modulier® LINE

Modulier Line is the simplest, purest form of entry.
Straight lines, basic geometry, restrained surfaces.
A function-driven system that delivers exactly what is needed.

- durable aluminium profiles, unique, variable design
- easy clean and repair, damaged elements are replaceable

more freedom | where design starts to speak

modulier® PRIME

Modulier Prime is the next level of the system.
A richer design language, dynamic patterns, premium walking surfaces.
The 45° elements introduce a new rhythm, where function begins to carry character.

- wide range of customizable modules and colour options
- fast-flooring system, quick & easy to install and maintain

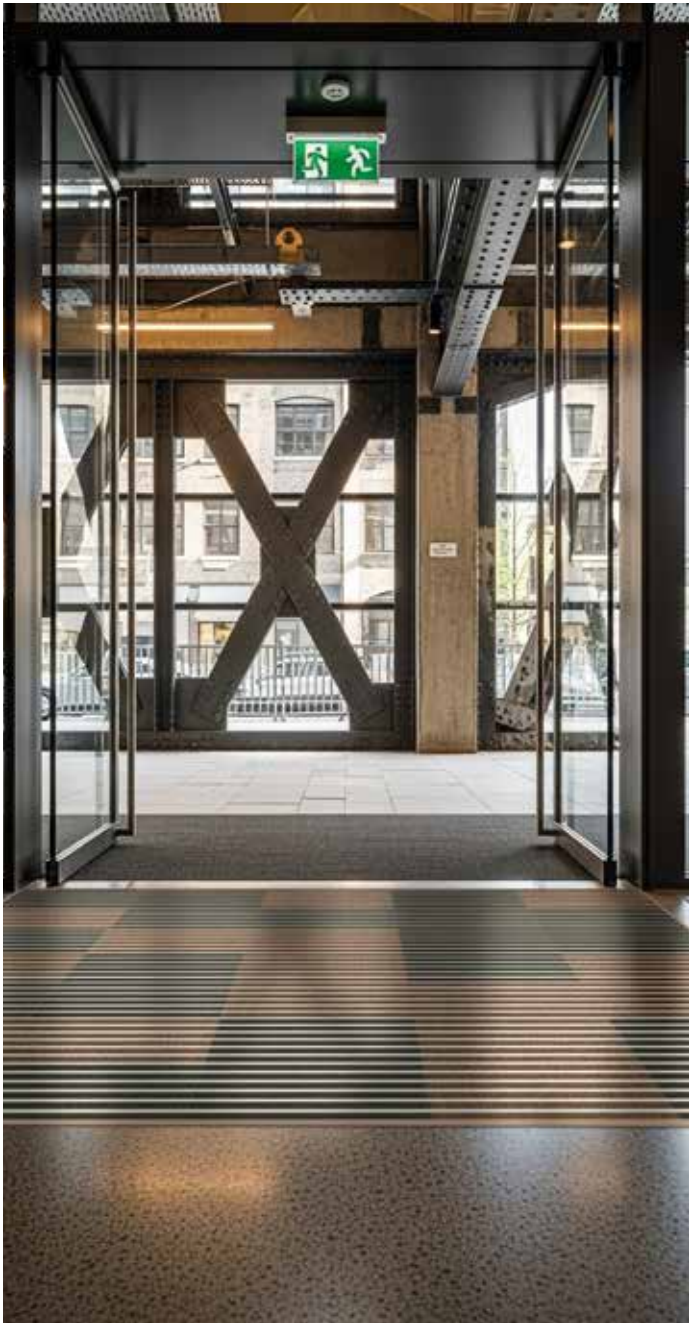
where creation knows no boundaries

ART'E DOOR

by modulier®

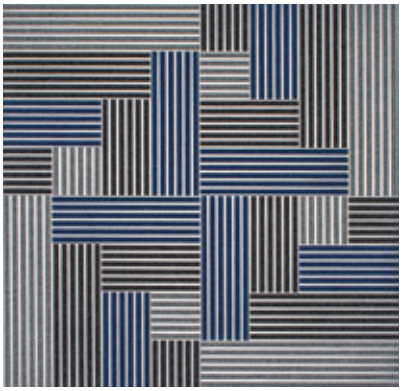
Art’e Door is where freedom takes form.
Every surface. Every colour.
A system whose form is not constrained, but created in harmony with the space itself.

- easy to plan, no extra survey time and cost
- ready-to-use modules, practical to storage and transport



Repositioning and rotating modules unlock countless design variations — without changing the system.
Sustainability and eco-friendly design are ensured by precise manufacturing technology and the interchangeability of modules.

Same modules, completely new patterns - Infinite expressions



The Modulier system adapts effortlessly to a wide range of spaces and applications

Its modular language allows it to function as a design feature across multiple interior spaces
